Hi Steve,

Attached are representative samples of screen shots from the Drug Laboratory computer application which document the transfer of evidence (half way down on the page). Two examples are included in the attachment:

- Exhibit A – is an example of how evidence transfers are typically documented in the computer application (i.e, safe, lab, safe, external). *Note: The transfer of this evidence is not part of the current investigation; it is provided for comparative purposes only.*
- Exhibit B – pertains to one of the samples included in the investigation. Please note that Elisabeth O'Brien indicated in the "notes" field that she returned the sample to the safe on 7-13-11.

Please contact me at the number below if I can provide any additional information.

Julie
